

DoC Check

Declaration of Compliance for FCM

For Food Contact Materials and Packaging, the declaration of compliance is a **certification proving compliance** with food safety legislation.

The Framework Regulation on Food Contact Materials and Articles specifies that a written Declaration of **Compliance with all the applicable regulations must accompany them.**

For plastic materials, the **EU Food Contact Plastics Regulation specifies which information** must be included.

IT IS VALID FOR:

- Finished products
- Intermediate products
- Substances intended for manufacturing materials and articles in contact with food.

IT IS ISSUED BY:

- Manufacturers of substances;
- Manufacturers of intermediate or semi-finished materials;
- Manufacturers of finished products (processors or assemblers);
- Importers placing substances, intermediate materials or finished products on the EU market
- End-users supplying packaged food.

>> DoC check: what does it consist of?

Does DoC cover the product for my food contact application?

I have the DoC, do I have to do something else?

What do I need to check?
